**What does the future have in store?**

CHRYSAOR

DEPARTMENT OF ENERGY

# The Public Inquiry into the Piper Alpha Disaster

The Hon Lord Cullen

# The Chrysaor Way

## Vision

Our vision is to create a market leading North European E&P company that we and our stakeholders are proud of.

## The Chrysaor Values & Business Principles:

‘Safety is fundamental to everything that we do. It is not a manual or checklist but is inherent in every thought and decision. Everyone should be able to go to bed securely after a safe days work. Accountability for safety rests with all of us’

## Chrysaor Safety Core Value

‘Chrysaor takes a systematic approach to the management of safety, environmental and operational risk. Chrysaor seeks to minimise any negative impact of its business activities and continually looks for ways in which it can further improve’

## Chrysaor Risk Management & Environment Business Principle

# Chrysaor Life Saving Rules

The Chrysaor Life Saving Rules are carefully focussed on both occupational and process safety hazards specifically relevant to our industry and associated offshore operations. They are an important element in our overall strategy for the prevention of incidents including major accident events. The observance of these important Rules is therefore mandatory.

|   |   |  |   |   |   |   |
|---|---|--|---|---|---|---|
|  |  |    |  |    |  |  |
| <b>Confined Space</b>   | <b>Working at Height</b>  | <b>Isolation</b>   | <b>Lifting</b>  | <b>Major Accident Prevention</b>  | <b>Control of Work</b>  | <b>Management of Change</b>   |
| Obtain authorisation before entering a confined space.                            | Protect yourself against a fall when working at height.                           | Verify isolation before work begins and use the specified life protecting equipment. | Conduct safe lifting operations.  | Know your role in Major Accident Prevention, especially relating to the observance of preventative measures & report all near misses. | Know your role in the Control of Work process.                                      | Know your responsibilities under the formal Management of Change process.           |
